## TABLE OF CONTENTS

<b>CHAPTER 1</b>	Economics 101, The Great Illusion . . . . . 5 <i>Endless-exponential-economic-growth is mathematically impossible. Yet, America's ongoing economy and your future are based on exactly that.</i>
<b>CHAPTER 2</b>	Economics 201, If It's Not Broke, By All Means, Break It! . . . . . 16 <i>The whacky fixes are examined that have kept an economy going that was never designed to last. You'll recognize them!</i>
<b>CHAPTER 3</b>	Economics 301, Sharing the Wealth . . . . . 29 <i>How purposely-induced inflation gives the false appearance of prosperity; temporarily, that is.</i>
<b>CHAPTER 4</b>	Economics 401, A Brand New Fix . . . . . 40 <i>Immigration, which is scary as heck to Middle America, is explained very quickly and very plainly.</i>
<b>CHAPTER 5</b>	We Couldn't Have Done It Without The Italians 53 <i>The underlying basis for America's economy has a chilling resemblance to a scheme that you could go to jail for practicing.</i>
<b>CHAPTER 6</b>	Modern Colonialism . . . . . 58 <i>The eerie resemblance between British Colonialism and our modern global expansion. It worked for Royalty, why not America's wealthy and Big Business?</i>
<b>CHAPTER 7</b>	Smoke and Mirrors . . . . . 70 <i>Is your future based on reality, or cheap magicians' tricks? A look at the predictable future without the rose-colored glasses.</i>
<b>CHAPTER 8</b>	Time and Materials . . . . . 85 <i>A fresh look at the way we spend our precious time on this spaceship called earth, and the ever-growing global consumption of our diminishing natural resources.</i>

<b>CHAPTER 9</b>	Social Insecurity and Maybecare . . . . .	99
	<i>Politicians have known for 40 years that there were two entitlement programs, which alone, would break the bank. So why didn't they tell us?</i>	
<b>CHAPTER 10</b>	People and Profits . . . . .	108
	<i>What counts most in keeping America's impossible-economy running, people or profits? You be the judge.</i>	
<b>CHAPTER 11</b>	Living in the System . . . . .	116
	<i>The system may be broke, but that is certainly no reason for you to be.</i>	
<b>CHAPTER 12</b>	There's Housing and Then There's Home .	130
	<i>The average person's greatest debt will be that of personal housing. Choose wisely. Armed with the facts and the common reason provided in this chapter, you may come away with a new and valuable perspective that could positively change your life forever.</i>	
<b>CHAPTER 13</b>	Reality and Other Nuisances Created by Facts .	151
	<i>Are you ignoring the real facts that impact your ability to live the best life possible? Debt does not equal happiness, yet most Americans believe differently.</i>	
<b>CHAPTER 14</b>	Live Simple, Live Well . . . . .	161
	<i>Who is living well from all of your hard work? It should, and could, be you. With a few simple changes, life can be grand.</i>	
<b>CHAPTER 15</b>	To the MIDDLE AGED: Change Course NOW! . . . . .	173
	<i>Retirement will remain possible for most. And pleasurable retirement at that, but a change in course will be necessary if you want to arrive on time (or better yet, early).</i>	
<b>CHAPTER 16</b>	For the Kids: A Survival Guide . . . . .	185
	<i>Our children and grandchildren will inherit a world of debt and perilous obstacles that they did not bargain for (or ever have a vote on). However, practicing the concepts provided in this chapter could lead them to a continued healthy and happy lifestyle in the greatest nation on earth, America.</i>
